What Areas of Illinois Does This Book Cover?

This book contains information on apprenticeship programs located in or accepting applications from the residents of the following counties: Cook, DuPage, Kane, Kendall, Lake, and McHenry. In some instances, a program may accept applicants from other counties or may only allow residents of a particular area to apply. This information will be listed in the *Basic Requirement* section of each program.

Why Choose a Career in Construction?

Why? Because the construction industry offers a wide variety of exciting options to young men and women! A career in the construction trades will provide excellent wages and benefits, job security, opportunity for advancement, and the chance to create something that will last for years to come.

There are currently more than five million people working in construction and more than 250,000 new workers will be needed every year. In fact, the construction industry is experiencing so much growth that a worker shortage is expected. This potential shortage creates an excellent opportunity for talented young men and women to embark on a satisfying career.

What is an Apprentice?

An apprentice is an individual who learns a craft through classroom instruction and on-the-job training. Classes are taught by men and women who are skilled in that trade while on-the-job training is overseen by construction employers.

Unlike other training programs, most apprentices are paid while developing their skills. And as your skill level increases, so will your pay level.

How do You Get Started?

Whether you know what craft you would like to enter or even if you haven't yet made up your mind, this handbook is designed to answer all of your questions regarding a career in the construction building trades.

Regardless of your choice, being prepared is essential. It's important to start planning for your future now. How? By taking the recommended courses, by obtaining applications, and by making sure you meet all the requirements to enter the apprenticeship program.

Preparing for a career in construction takes some planning on your part. But a little hard work now will result in a satisfying, well-paying career in your future.

ARCHITECTURAL IRON WORKER

Architectural Iron Workers perform field fabrication and installation of: window walls, storefronts, glass & metal doors, door hardware, stairs, scaffolds, chain link fences, fire escapes, flag poles, guard rails, canopies & playground equipment, skylights & vault doors and adjacent supports.

Basic Requirements:

- Must be at least 18 years old.
- Must have a high school diploma or GED.
- Must have a valid driver's license and transportation.
- Must pass an aptitude test.
- Must pass a drug test.
- Must be able to speak and understand the English language.

How To Apply:

- Applications are accepted for a two-week period every two years.
- Complete application process by providing proof of age and education and pay a \$125 non-refundable fee.
- Take and pass a general aptitude test.
- Take and pass an oral interview.
- Name of applicants who pass the aptitude test and follow all the above steps are placed on an eligibility list according to scores.
- Applicants are chosen in order from this list.

Abilities:

- Must be able to lift heavy objects.
- Must be able to work at elevated heights.
- Must pay attention to detail.
- Must have a good work ethic and positive attitude.
- Must be hard working and motivated.

Recommended Preparatory Classes:

- Any Shop Classes.
- Mathematics Classes.
- Drafting.

Work Experience:

- Helpful, but not necessary for acceptance.
- Familiarity with any type of construction.

Working Conditions:

Architectural Iron Workers work in all types of weather conditions and at various heights.

Length of Apprenticeship:

- Three (3) years—Minimum of 4,200 - 6,000 hours of on-the-job training.
- Apprentices attend school twenty-six (26) hours a month from September - June.
- Apprentices work five days a week receiving on-the-job training.

Wage Information:

1st year	50% of journeyman's wage
2nd year	60% of journeyman's wage
3rd year	70% of journeyman's wage
Journeyman Level	100% of journeyman's wage
<i>Average Journeyman's wage rate = \$51.63/Hr. (06/20)</i>	

Benefits:

Health & Welfare
Pension

BOILERMAKERS

Boilermakers work generally welding, burning, cutting, shipping, caulking, riveting, grinding, impact tool operation, fitting, reaming and rigging. Work is done from plans, blueprints, and specifications to do installation in a sequence of tasks. Boilermakers must be capable of planning and visualizing a complete project.

Length of Apprenticeship:

Four (4) years

- Apprentices attend classroom training.
- Apprentices also receive on-the-job training.

Wage Information:

1st 6 months	60% of journeyman's wage
2nd 6 months	65% of journeyman's wage
3rd 6 months	70% of journeyman's wage
4th 6 months	75% of journeyman's wage
5th 6 months	80% of journeyman's wage
6th 6 months	85% of journeyman's wage
7th 6 months	90% of journeyman's wage
8th 6 months	95% of journeyman's wage
Journeyman Level	100% of journeyman's wage

** Specific wage information will be provided to accepted applicants.

Benefits:

Heath & Welfare, Pension, Annuity.

Basic Requirements:

- Must be at least 18 years old.
- Must present a birth certificate.
- Must have a high school diploma or a G.E.D. certificate.
- Must be able to work legally in the United States.
- Must be able to take and pass a yearly drug/alcohol test.
- Must be willing to complete a four-year course on personal time.

Working Conditions:

Boilermakers work in all types of weather conditions, in confined spaces and at various heights.

Recommended Preparatory Classes:

Reading, general math, science, blueprint reading, mechanical drawing and welding.

Abilities:

- Must be capable of strenuous work and in good physical condition.
- Must be able to lift heavy objects.
- Must be able to work at high levels.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Familiarity with any type of construction work would be beneficial.

Entry Process:

- Complete application at the office. (Applications are accepted on the third Thursday of the month from 8:00 a.m.-10:00 a.m. at 2941 Archer Avenue, Chicago, IL.)
- Applicants must have a copy of their birth certificate and high school diploma at time of filing to receive application.

DRYWALL FINISHER

Drywall finishers are concerned with the application of drywall tape and finishing compounds to the joints of adjacent panels or gypsum wallboard panels in order to provide a smooth, unbroken surface on finished drywall ceilings and walls.

Length of Apprenticeship:

Two (2) years

- Apprentices attend one day of classroom instruction per week for a total of 59 weeks during the course of the program.
- Apprentices receive 3,712 hours of on-the-job training during the program.

Wage Information:

During 60 day Probationary Period
61 days-1,000 hours
1,001-2,000 hours
2,001-3,000 hours
3,001-4,000 hours
Completion of 4,000 hours or two years

40% of journeyman's wage
50% of journeyman's wage
60% of journeyman's wage
70% of journeyman's wage
80% of journeyman's wage
100% of journeyman's wage

Benefits:

Health & Welfare, Pension

Basic Requirements:

- Must be at least 18 years old.
- Preferably possess a high school diploma or a G.E.D. certificate. *(A minimum of two (2) years of high school as indicated by an official transcript will be considered.)*
- Must be a U.S. citizen (birth certificate) or have an alien registration card.
- Must have a valid Drivers' License or State I.D.
- Must have a Social Security Card.
- FOR SAFETY REASONS: Must be able to read, write, and speak the English Language well enough so as not to need an interpreter. *(Conversational English classes will be paid for provided the applicant passes the course.)*
- No Admission Test or Fee is required. Applicants will be given a prospective list of employers who follow fair employment practices and are signatory to Painters' District Council #14. Applicants should seek employment using the supplied list.

Working Conditions:

Drywall finishers work both indoors and out.

Recommended Preparatory Classes:

Math and blueprint reading classes.

Entry Process:

- Applicant must call (708) 449-9022 first to make an appointment on Monday, Wednesday, and Friday between the hours of 10:00 a.m. - 2:00 p.m. (*Excluding school holidays*)
- Secure employment after submitting application.
- Submit a Letter of Intent to Hire from the contractor to the J.A.T.C. office before beginning employment.
- Must take and pass a drug screening.
- Upon receipt of this letter, applicant will be issued probationary (60 day) Union Work Permit.
- Applicant is required to pay a non-refundable \$536.00 Initiation and Permit Fee by money order. Upon payment, the applicant will be asked to appear before and join a Painters' Local Union selected by the Council. The applicant will then be initiated, and future dues will be paid to the Local.

Five (5) Years

- 1st year apprentices attend classroom instruction full-time for 11 weeks then receive on-the-job training for nine months. Apprentices are paid 40% of Journeyman rates, and after six months receive 45% of the rate.
- 2nd year apprentices attend classroom instruction full-time for nine weeks and then receive on-the-job training for nine months. Apprentices receive 50% of Journeyman rates and after six months receive 55% of the rate.
- 3rd year apprentices attend classroom instruction full-time for nine weeks and then receive on-the-job training for one year. Apprentices are paid 60% of Journeyman rates and after six months receive 65% of the rate.
- 4th & 5th year apprentices attend seminars in the evening while receiving on-the-job training five days a week. Apprentices (in the 4th year) are paid 70% of Journeyman rates and after six months receive 75% of the rate. In the Fifth Year, apprentices receive 80% of Journeyman's rate and after six months receive 90% of the rate.

The program, wages, rates, and curriculum may be modified to meet the needs of the industry.

Benefits:

Health & Welfare, Pension, Annuity

Basic Requirements:

Please call the office for more information.

Working Conditions:

Electricians work both indoors and out.

Recommended Preparatory Classes:

Algebra, geometry, trigonometry and drafting classes.

Work Experience:

(Helpful, but not necessary for acceptance.)

Familiarity with any type of construction work or electronics would be beneficial.

Entry Process:

All applicants must report in person (Wednesday's ONLY between 9 - 11 a.m. at the Alsip Training Center) and bring the following documents in order to register:

- Your valid Driver's License.
- Your original Social Security Card.

You must provide copies of the following documents that will be kept by EJATT (No documents will be copied in our office or returned to you):

- A \$25.00 non-refundable registration fee (Money Order only made payable to EJATT).
- To prove employment eligibility you must provide a copy of your U.S. Birth Certificate, U.S. Passport, Certificate of U.S. Citizenship or Naturalization, or Permanent Resident Alien Card. (Minimum age of 17 at registration).
- To prove High School Graduation (HS), you must provide a copy of your HS transcript (official or unofficial), or a copy of a HS Diploma, or GED Certificate.

College transcripts do not satisfy this requirement. Current HS seniors may register with acceptance contingent upon graduation.

- To prove one full year of HS level Algebra with a grade of at least "C" or better, or one post HS level Algebra course or higher level course with a grade of at least "C" or better, you must provide a copy of a transcript. Note: The GED Math Certification does not satisfy this requirement.

Upon an offer of apprenticeship, you must be able to demonstrate that you can perform the essential functions of an apprentice electrician with or without a reasonable accommodation. In addition, a drug screen, physical exam, and background check will be required.

The recruitment, selection, employment, and training of apprentices shall be without discrimination because of race, color, religion, national origin, or sex. EJATT will provide equal opportunity in the apprenticeship program, and will operate as required under all applicable laws and regulations.

ELECTRICIAN

Electricians install electrical service and power distribution to various types of buildings and structures. They provide new wiring; provide power and controls to motors, HVAC, and other electrical equipment; and install receptacles, light fixtures, fire alarms, traffic signals, outdoor lighting, process control, energy management, power generation, and security and telephone systems.

Length of Apprenticeship:

Five (5) years (approximately)--Minimum of 8,000 hours of on-the-job training & 900 hours of related classroom instruction.

Wage Information:

0-1,000 hours worked	45% of journeyman's wage
1,001-2,000 hours worked	50% of journeyman's wage
2,001-3,000 hours worked	60% of journeyman's wage
3,501-3,000 hours worked	70% of journeyman's wage
5,001-3,000 hours worked	80% of journeyman's wage
6,501-8,000 hours worked	90% of journeyman's wage
8,000+ hours worked	100% of journeyman's wage

Benefits:

Health & Welfare, Pension, Vacation, Annuity.

Basic Requirements:

- Must be at least 18 years old.
- Must have a high school diploma or G.E.D. certificate.
- Must have at least one year of high school level algebra 1 or equivalent with a grade of "C" or better.
- Must have a valid driver's license.

Working Conditions:

Electricians work both indoors and out in extreme conditions. Sometimes work must be done in confined spaces and there is exposure to toxic and hazardous conditions.

Recommended Preparatory Classes:

Algebra, geometry, trigonometry, communication, and vocational education classes.

Abilities:

- Must have the willingness to work, attend classes, and maintain proper conduct.
- Must be in good physical condition.
- Must be able to work with a wide variety of people.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Familiarity with any type of construction work or any mechanical, hands-on experience would be beneficial.

Entry Process:

Complete application. (Applications are available on Tuesdays from 8:00 a.m.-noon and 1:00 p.m.-4:00 p.m.)

NOTE: You must have a photo I.D. to get an application.

Pay a \$20 application fee.

Take the National Aptitude Test.

Take an oral interview.

Take and pass a physical exam.

Take and pass a drug test.

Names of applicants are placed on an eligibility list according to final scores.

Selection begins with the top of the list.

ELEVATOR CONSTRUCTOR

The Elevator Constructor Apprentice is responsible for assisting in the installation, maintenance and repair of the passenger and freight elevators, escalators, dumbwaiters and moving sidewalks under the direction of a mechanic.

Length of Apprenticeship:

The term of the apprenticeship will be four (4) years with an (OJL) attainment of 6,800 hours supplemented by the required hours of related instruction in conjunction with a one-year probationary period.

Wage Information:

The wage rate for Elevator Constructor Apprentices shall be the progressive scale of wages set forth below, and those progressive elevations shall become effective the next full pay cycle following September 1st, commencing September 1st:

Probationary Apprentice (0- 6 mos.)	50% of mechanic's rate
First Year Apprentice	55% of mechanic's rate *
Second Year Apprentice	65% of mechanic's rate *
Third Year Apprentice	70% of mechanic's rate *
Fourth Year Apprentice/Asst. Mechanic	80% of mechanic's rate *

(Plus fringe benefits as provided by the collective bargaining agreement)*

Benefits:

Health & Welfare, Pension & Annuity, Vacation Pay, Holiday Pay

Qualifications:

Education/Minimum Requirements:

- HS diploma or equivalent (GED).
- Must be at least 18 years old or over.
- Must be authorized to work in the United States.

Knowledge Abilities:

- To understand general arithmetic.
- To speak and write in a clear and understandable manner.
- To understand verbal or written instructions.
- To successfully complete all required NEIEP courses.
- To learn, practice and adhere to safety standards.

Mental Effort Abilities:

- To maintain normal attention spans, with intermittent periods of high concentration, to assist the mechanic in electrical and mechanical installation, repair or service operations.
- To perform administrative duties, i.e., gathering data and submitting written reports.

Physical/Environmental Abilities & Requirements:

- To walk or stand for long periods of time on the job.
- To lift up to 100 lbs.
- To perform repetitive stooping, forward bending and crouching.
- The ability and willingness to travel extensively.

Physical/Environmental Abilities & Requirements (cont.):

- To perform essential job functions in a field setting with exposure to non-climate controlled conditions.
- The ability/willingness to withstand heights and work in cramped working conditions.

Manual Dexterity Abilities:

- To use hands, arms and feet for repetitive lifting.
- To use hands and arms to operate various hand and power tools, and to record written information.
- To perceive color to distinguish color coded wiring components.

Entry Process:

If you are interested in the Elevator Constructor Apprenticeship Program, please read the following description of our process carefully. Recruitments are announced through various forms of media; you must adhere to all instructions. Go to the NEIEP website at www.neiep.org

1) If your application is complete, including required attachments, and you meet the minimum qualifications, you will receive an email from the Local Area Coordinator scheduling you to take the Elevator Industry Aptitude Test (EIAT) which is a validated basic skills exam designed to measure your potential success in the Elevator Trade. Your abilities will be assessed in the areas of reading, mechanical comprehension and arithmetic computation. There is a \$25 fee payable by Money Order only. Following the EIAT you will also take a Tool Assessment designed to assess your knowledge of basic tools and their use, as well as basic measuring skills. *Please note that when you are scheduled for the exam, the date and time cannot be changed and you must present a picture ID in order to sit for the exam.* The EIAT is scored on a pass/fail basis, with 70% correct being the minimum passing grade. Applicants who fail the EIAT will NOT be interviewed and will be removed from the applicant pool; however, they may apply during subsequent recruiting periods.

2) Applicants who pass the EIAT will receive an email notifying them that they have passed the exam, and scheduling them with an interview with representatives from the Joint Apprenticeship Committee (JAC). Once again, interview times cannot be changed. A hiring committee consisting of at least one individual from both the Employer and the International Union of Elevator Constructors (IUEC) will conduct the interviews. All applicants will be asked the same set of questions, and interviewers will take notes during the interview.

3) Applicants will be scored based upon education, work experience, oral interview and tool assessment, and will be placed on a ranked list. The JAC will notify all applicants of the results, and applicants will be placed as apprentices based on their rank in this pool of eligible candidates. Applicants not selected for employment will remain on the ranked list for a period of two years.

IRON WORKER

Iron Workers must be able to perform in the following categories: structural; ornamental; reinforcing; and machinery moving and rigging. This work includes erecting structural steel bridges, buildings, viaducts, subways, tunnels, roof decking, pre-stressed and post-stressed concrete; applying sheeting to structural steel frames; and installing metal stairways, catwalks, floor gratings, iron ladders, ornamental grilles and screens, gates, chain link fences, and decorative iron-work fences and balconies.

Length of Apprenticeship:

Four (4) years

- Apprentices attend school once a week from September - May during year one, three, and four of the program. During year two, apprentices attend school two nights a week.
- Apprentices also work five days a week receiving on-the-job training.

Wage Information:

0-900 hours	55% of journeyman's wage
901 - 1,800 hours	60% of journeyman's wage
1,801 - 2,700 hours	65% of journeyman's wage
2,701 - 3,600 hours	70% of journeyman's wage
3,601 - 4,500 hours	75% of journeyman's wage
4,501 - 5,400 hours	80% of journeyman's wage
5,401 - 6,300 hours	85% of journeyman's wage
6,301 - 7,200 hours	90% of journeyman's wage
Journeyman Level	100% of journeyman's wage

Benefits:

Health & Welfare, Pension, Annuity.

Basic Requirements:

- Must show a birth certificate.
- Must be at least 18 years old.
- Must have photo identification.
- Must have a high school diploma or a G.E.D. certificate. (Transcripts are required.)
- Must have a valid Illinois driver's license.
- Must pass an aptitude test.
- Must take an oral interview.
- Must live within approximately a 35 mile radius of Aurora for one year prior to application. (If you are not sure that your town is within the jurisdiction, call the office.)

Working Conditions:

Iron Workers work in all types of weather conditions and sometimes at great heights. The work can be hazardous.

Recommended Preparatory Classes:

Mathematics, drafting, and shop or construction classes.

Abilities:

- Must be able to withstand extreme weather conditions.
- Must be in good physical condition.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Familiarity with any type of construction work, welding, or drafting is beneficial.

Entry Process:

- Complete application at the J.A.T.C. office. *(Applications are accepted once a year. Check your local papers or call for exact dates.)*
- Take and pass a general aptitude test.
- Applicants scoring in the upper half must then take and pass an agility test.
- Applicants will then be interviewed by the committee.
- Applicants must submit a physician's note stating that they are physically capable of performing the work of an Iron Worker.
- Must take and pass a pre-employment drug screening.
- A combination of the test scores will be used to determine the rank of an applicant.
- Applicants with the highest rank are chosen to enter the program.

PLASTERER

Plasterers finish interior walls and ceilings by using a one, two, or three coat system. They install insulated finish systems, apply stucco to exterior walls and ceilings, and soundproof and fireproof buildings.

Length of Apprenticeship:

Four (4) years

- Apprentices attend classroom instruction one day per week while receiving on- the- job training.

Wage Information:

First Six Months	50% of journeyman's wage
Six Months - One Year	55% of journeyman's wage
1 Year - 1.5 Years	60% of journeyman's wage
1.5 Years - 2 Years	65% of journeyman's wage
2 Years - 2.5 Years	70% of journeyman's wage
2.5 Years - 3 Years	75% of journeyman's wage
3 Years - 3.5 Years	80% of journeyman's wage
3.5 Years - 4 Years	85% of journeyman's wage
Journeyman Level	100% of journeyman's wage

Benefits:

Health & Welfare, Pension, Retirement Savings.

Basic Requirements:

- Must be at least 17 years old.
- Must have a valid driver's license.
- Must have own transportation.
- Must be physically fit to perform the work of the trade.
- Must be able to read, understand, write and communicate the English language.
- High school diploma or GED required.

Working Conditions:

Plasterers work inside and out. Work may be somewhat seasonal.

Recommended Preparatory Classes:

Mathematics, mechanical drawing, science, and shop classes.

Abilities:

- Must be able to lift heavy objects.
- Must be able to work at high levels from scaffolds and ladders.
- Must be able to handle a large amount of bending and stretching.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Familiarity with construction work of any kind.

Entry Process:

•Applications are accepted every 2nd & 4th Thursday each month between the hours of 10:00am and 2:00pm. Applicants must appear in person to file the application.

- Applicant must secure employment on their own with a signatory plastering contractor (*list of signatory contractors available at the union office*) and submit a letter of intent on the employer's company letterhead.
- Applicant must pay the Apprentice Initiation Fee within six months of employment

PLUMBER

A Plumber's work consists of plan reading, and layout of, installation and the maintenance of plumbing systems. These plumbing systems may be "green" and will include underground water supply, storm water, sewer drainage, fixture installation, and waste & vent piping both inside and outside of buildings.

Length of Apprenticeship:

Five (5) years

- Apprentices receive on the job training four days a week and related classroom training one day a week for the first three years of their careers while in the program.
- Apprentices in their 4th and 5th years will attend related classroom training in the evening and receive on the job training five days a week.
- Apprentices may attend school at one of our three training facilities: Volo, Chicago or Joliet, Illinois. (*Location and day of the week for related training, subject to change.*)

Wage Information:

First Six Months	34% of journeyman's wage
Second Six Months	37% of journeyman's wage
Second Year	44% of journeyman's wage
Third Year	50% of journeyman's wage
Fourth Year	66% of journeyman's wage
Fifth Year	75% of journeyman's wage

(Specific wage information will be provided to accepted applicants during the mandatory 40 hour unpaid orientation session.)

Benefits:

Health & Welfare, Pension (*An eligibility period is established with each collective bargaining agreement.*)

Basic Requirements:

- May be 17 years old to apply. Must be 18 years old at the time of acceptance into the program.
- Must have earned a high school diploma or GED certificate. Water sealed high school transcripts may be accepted.
- Must have a copy of a valid birth certificate and two pieces of photo ID.
- Must have a valid driver's license and reliable transportation.
- Must pass two (urinalysis and hair follicle) drug tests - including marijuana.
- Must pass two (general physical and a physical agility) physical exams.
- A copy of a DD-214 (Armed Forces Discharge), if applicable.

Working Conditions:

Plumbers are exposed to various weather conditions and work environments.

Recommended Preparatory Classes:

Mathematics, physical science, chemistry, mechanical drawing, reading comprehension, industrial arts and problem solving classes.

Abilities:

- Must be able to work at high levels with ladders, scaffolds and aerial platforms.
- Must be able to work in confined spaces.
- Must be physically able to perform the work of the trade at all times.
- Must possess an excellent work ethic and be dependable.

Work Experience:

Previous experience with construction or plumbing tools is beneficial, *but not necessary for acceptance.*

Entry Process:

- Applications are received and completed the day you arrive for your registration.
- Applications are taken every years.
(Check website: www.jac130.org or local newspapers)
- Applicants meeting the basic requirements are given an aptitude exam.
- Applicants must complete a personal experience form.
- Applicants **should** obtain a letter of recommendation and/or intent to hire letter.
- Applicants are ranked based on the accrued points of the 3 preceding components.
- Applicants will be taken based on their rank: highest to lowest.

ROOFER & WATERPROOFER

Roofers use a wide range of products and application techniques for applying hot asphalt, hot coal tar pitch, rubber (EPDM & Hypalon), thermo plastics systems, torch applied modified bitumen, and cold applied systems. In addition, they install insulation & gravel and work with slate, cement & clay tile, and shingles. Waterproofers apply materials to plaza decks and building foundations to keep moisture out.

Length of Apprenticeship:

Five (5) years - minimum 5,500 hours of on-the-job training.

- Apprentices attend classroom and hands on training during all years of the program. Classes are held on Saturdays from October through May.
- 3rd year apprentices must participate in week-long classes that are held on weekdays.

Wage Information:

First 6 months	45% of journeyman's wage
Second 6 months	50% of journeyman's wage
Second Year	60% of journeyman's wage
Third Year	65% of journeyman's wage
Fourth Year	70% of journeyman's wage
Fifth Year	80% of journeyman's wage
Journeyman Level	100% of journeyman's wage

Benefits:

Health Program, Pension (Local and International).

Basic Requirements:

- Must be at least 18 years old.
- Must show an original high school diploma or a G.E.D. certificate.
- Must show valid drivers license & valid social security card.
- Must pass a physical exam.
- Must pass a drug test.
- Must have reliable transportation.
- Must be able to speak and understand the English language. (*All classes taught in English.*)

NOTE: Six months' commercial roofing experience can be used to waive the education requirement.

Working Conditions:

Roofers and Waterproofers work in extreme temperatures at high altitudes.

Recommended Preparatory Classes:

Algebra, geometry, mechanical drawing, reading comprehension, and physical education classes.

Abilities:

- Must be physically able to do the work of the trade.
- Must be able to work at high levels.
- Must be able to work in confined spaces.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Familiarity with outside work or any job that called for the use of tools, drafting, or practical application would be beneficial.

Entry Process:

- Complete application. *(Applications are available all year and must be completed at the office.)*
- Take an aptitude test.
- Wait until your name reaches the top of the apprentice list.
- Once notified, take and pass a drug screening and physical exam within 24 hours of being called.
- Must pay a \$550 initiation fee.

TEAMSTERS

Construction Teamsters work in the construction building industry. This includes asphalt, concrete and dirt work for new roads and rebuilding of existing roads. Our mission at the Illinois Teamsters/Employers Apprenticeship & Training Fund is to provide job skills training for Teamsters in the construction industry. Students learn to work in a safe and productive manner. Upon completion of classes, graduates will enter the workforce fully prepared to accomplish the tasks for which they are hired. Teamsters work with all types of equipment and in all types of weather, traffic and in hazardous conditions.

Length of Apprenticeship:

Four (4) years

- Each year, apprentices are required to attend classroom training, and receive on the job training to advance to their next level where they learn to safely operate various types of equipment and receive additional safety training.

Wage Information:

An apprentice earns a percentage of the journeyman's wage.

First Year	60% of journeyman's wage
Second Year	70% of journeyman's wage
Third Year	80% of journeyman's wage
Fourth Year	90% of journeyman's wage

Benefits:

Teamster Unions provide medical insurance and retirement benefits.

Basic Requirements:

- A \$25 non-refundable application fee is required at the time of application. Only cash or money orders will be accepted.
- Applicants must possess a valid Illinois driver's license.
- Applicants must have an Illinois Class "D" driver's license for one (1) year, and a clean driving record as shown on an Illinois State Motor Vehicle Driving Report.
- Applicants must be at least 18 years of age.
- Applicants must have a high school diploma or G.E.D.
- Applicants must pass DOT physical.
- Applicants must pass drug test.
- Applicants may be required to pass a written test and an oral interview.

Training Center Courses:

To participate in any of the following training classes, please contact us at 815-773-0700.

- 10-Hour OSHA
- 40-Hour Hazmat OSHA
- 8-Hour Refresher Courses
- DOT Training

The following courses are available to everyone:

TECHNICAL ENGINEER

Technical Engineers perform control, preliminary & construction surveys to provide line and grade and to establish or re-establish base lines, center and offset lines. They also establish bench marks and transfer of grades and elevations; set up and operate instruments including optical & electrical, line, distance, and grade devices; read and interpret architectural, civil, mechanical, and electrical drawing plans and specifications; perform the computations necessary to layout horizontal and vertical work points and control lines for the multiple trades and crafts on construction sites and projects.

Length of Training:

Five (5) years

- Rodmen attend school one or two nights a week from September - May for four years.
- Rodmen work five days a week receiving on-the-job training.

Wage Information:

Specific wage information will be provided to accepted applicants.

Benefits:

Health & Welfare, Pension.

Basic Requirements:

- Must be at least 18 years old.
- Must show a birth certificate.
- Must have a high school diploma or a G.E.D. certificate. *(An Associate or Bachelor Degree in Civil Engineering or Surveying is recommended. Transcripts must be submitted.)*
- Must have a valid driver's license.
- Must have reliable transportation.
- Must take an aptitude test.
- Must take an oral interview.

Working Conditions:

Technical Engineers work primarily outside. Their work consists of a lot of climbing, walking, stooping, and kneeling.

Recommended Preparatory Classes:

English, general mathematics, algebra, geometry, trigonometry, comprehensive reading, and communication classes.

Abilities:

- Must be able to work at high levels.
- Must be physically fit.
- Must be able to work around earth moving equipment in trenches and excavations.
- Must have good math skills.

Work Experience: *(Helpful, but not necessary for acceptance.)*

Exposure to working outdoors, and experience in surveying is beneficial.

Entry Process:

- Complete application. (Applications are available all year long. The recommended time for obtaining an application is on Thursday evenings from 6:00 p.m. - 9:00 p.m.)
- Take and pass a general aptitude test.
- If the aptitude test is passed successfully, the applicant will be interviewed by the advisory committee.
- Applicants that successfully complete the aptitude test and oral interview will be placed on a list and the Local will attempt to find employment for the rodman so on-the-job training can begin. They may also seek their own employment from area companies.
